

## **SHOWREEL PACKAGES 2011**

**Any actor or presenter or even entertainer (comedians, hypnotists etc) and sometimes photographers, spokespeople etc could use a showreel – whether they are aspiring to or actively working in the business.**

**We offer a range of showreel shoot and edit options but each project is different – you might only need to have existing material edited into a showreel or you may want to shoot scenes specially for your showreel – and should be discussed with you to represent you the best way possible.**

Each package excludes the costs for expenses and this would cover everything from crew travel and tape stocks through to the actual requirements of the video e.g. location hire, lighting hire, actors, props.

To help you fund the showreel, we offer an instalment payment plan to spread the cost over the life of the project.
