

SHOWREEL PACKAGES 2009/10

We offer a range of packages for showreels, but each project is very individual and it is important that your vision is met with a realistic budget proposal to achieve the right result as a promotional tool.

Our showreel services can be used to promote individuals (actors, presenters), bands or musical artists, tribute bands, charities, local groups or business organisations and we can shoot specifically arranged material or attend an existing event to gather footage for the reel.

Each package excludes the costs for expenses and this would cover everything from crew travel and tape stocks through to the actual requirements of the video e.g. location hire, lighting hire, actors, props. Location hire costs can be significant so this is worth bearing in mind.

To help you fund the showreel, we offer an instalment payment plan to spread the cost over the life of the project.
